OUR MISSION IS TO DEVELOP CARPET CLEANING SYSTEMS THAT COMBINE EFFICIENCY, SUSTAINABILITY AND EASE OF USE FOR CLEANING PROFESSIONALS AROUND THE WORLD.

Patrick Ladinig, CEO

PROFESSIONAL CARPET CLEANING SYSTEMS

CARPET CLEANER INDUSTRIES is the manufacturer of one of the world's leading dry and low-moisture carpet cleaning systems. Our flagship component is the original "Austrian Made" Counter Rotating Brush (CRB) machine, which has become the gold standard of CRB technology worldwide.

In addition to our machines, we manufacture a complete range of encapsulation cleaning solutions, professional spotters, and one of the world's most effective dry carpet cleaning compounds.

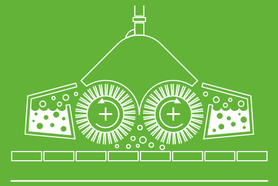

Our system is endorsed and approved by major carpet manufacturers and listed on the Carpet & Rug Institute's (CRI) approved deep clean systems list. Our dry carpet cleaning compound is laboratory certified as 99.9% organic and Woolsafe approved. Many of our products are also private labelled by some of the cleaning industry's largest companies.

ECO DRYNAMITE CLEANING COMPOUND

ECO DRYNAMITE

CARPET CLEANING COMPOUND

ECO DRYNAMITE is a high-performance dry carpet cleaning compound designed for professional low-moisture carpet maintenance. The compound is brushed deep into the carpet fibers using a CRB machine, where it absorbs and encapsulates dirt particles. After drying, the compound together with the absorbed soil is simply vacuumed away.
