i-wash

One pole to rule them all

INQUIRE. INNOVATE. INSPIRE

i-wash

Working many hours cleaning windows with water fed poles can put a tremendous strain on your body. Working with the right material can make a huge difference for your health, as well as help you to work more efficient and safer. Meet i-wash, a family of lightweight carbon water fed poles and accessories designed to be the perfect fit for professional window cleaners. i-wash is the most advanced pole system available on the market. Its user-friendly, very efficient and versatile due to its click-on click-off system. i-wash is a plug and play system, it comes fully assembled so you are ready to go.

User-friendly, efficient & versatile

Perfect pole for every job

The rigidity and the weight of the pole effects your performance. The i-wash family has three types of water fed poles to choose from and 2 extensions poles. Depending on the type of job, your working hours and the working height, you can choose the pole to suit your situation.

i-wash Basic Reach
Perfect for a quick start.

Extention Pole
Reach up to 18,5 meters

i-wash Pro Reach
Must-have for working in high places

Power Wash
Best balanced pressure fed pole on the market

Key **features**

Modular Extensions
The i-wash is a telescopic and modular concept. You can add or remove extensions from the pole to meet your needs. The handle diameter remains the same regard-less of the amount of extensions used. All parts have endcaps to protect the carbon fiber from damaging, making them extra durable.

Smart clamps
The hi-tech smart clamps prevent spinning levers and are designed to operate easily & reliably throughout the pole's entire life. The clamps allow you to easily extend or collapse the pole in just seconds.

i-suit
Using i-wash in combination with i-suit allows you to work 20% faster on bigger jobs without the struggle on your body. Reducing the workload and physical strain by 50%.

Visual warning
Never overextend your poles with the visual warning system used at the end of each pole.

Efficient quick release system
i-wash has a quick release system so you can exchange brushes and accessories quickly and save precious time on the job.

Hose management
The hose is led through the inside of the pole so you will never get tangled up. Removing the hose to change a brush is done in seconds. Pull out the red locking clip, push the black collar towards the T-piece, hold it whilst pulling out the hose and off you go.

i-wash
Pro Reach

Safety

With a reach of up to 18,5 meters operators can clean windows with both feet on the ground.

Material

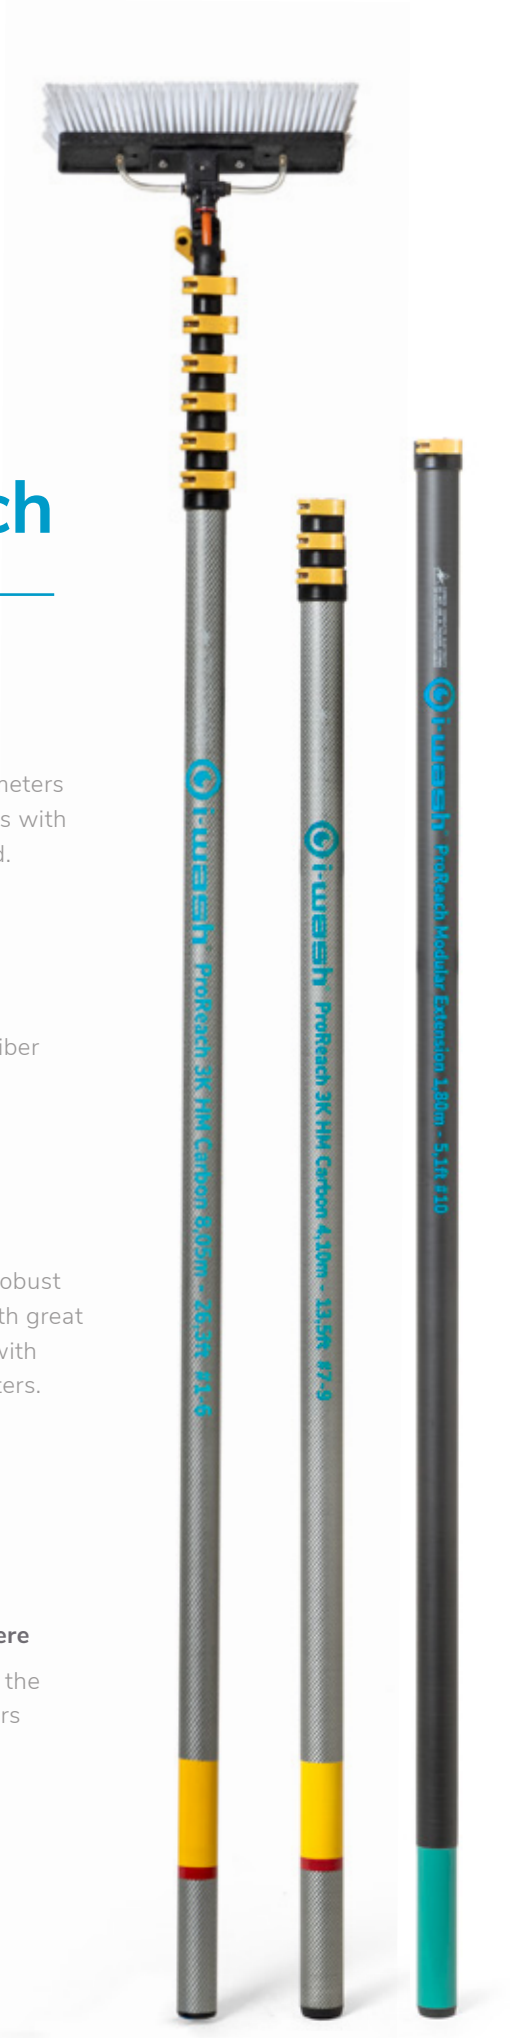

High Modulus 3K carbon fiber

Great rigidity

The Pro Reach is the most robust shorter pole on the market with great rigidity even when used with extensions up to 18.5 meters.

Take it with you anywhere

It's collapsed size without the brush is only 1.57 meters so it can fit in any van.

Extend your possibilities

The rigid and very light extendable carbon poles will make sure you will have the right length for every job, will let you work effectively, and save time. Extension Part 1 has 3 poles and gives an extra height of 4.10 m. Extension Part 2 gives you 1.80 m extra per pole. The maximum working height you can reach with all extensions is 18.5 m.

Agile & light

i-wash
Basic Reach

Ground level work

With a working height of 9.5 meters the i-wash Basic Reach is the perfect pole for ground level work.

Material

65% Carbon fibre

Extension

The Basic Reach has 6 pole lengths starting from 1.57 m to an extended length of 8.05 m.

Take it with you anywhere

Its collapsed size without the brush is only 1.57 meters so it can fit in any van.

i-wash Basic Reach

The i-wash Basic Reach is a perfect entry level pole to get started quickly

Full control

Power **Wash**

Work ergonomically

In combination with the high pressure tube add-on of the i-suit you are able to work ergonomically and improve your work performance. The add-on will also keep the Power Wash balanced.

Working height

Maximum working height is 8 meter.

Stable & effective

Working with extreme temperatures

The Power Wash can handle temperatures from 0°C to 100°C.

Power Wash

The best balanced pressure-fed pole on the market.

Cleaning outer walls

With 200 Bar the Power Wash offers a solution for any high pressure cleaning task! Easily clean outter walls without having to use an aerial work platform.

Easy to use

The Power Wash comes fully assembled, just add the nozzle to the tip.

Toolbox for every job

A well-equipped toolbox is essential for completing different window cleaning jobs. i-wash has a solution available for every job, all combined in one handy toolbox. The contents of toolbox include accessories, brushes, goosenecks, extenders, swivel movement, spray systems, and spare parts.
