

Duomatic Esprit

With Power-Whirl for maintenance cleaning

wetrok®

Duomatic Esprit: Effortless excellent results

Robust, compact, reliable – the new scrubber-drier Duomatic Esprit by Wetrok is the perfect all-rounder for daily use. There is no compromise when it comes to power and performance. The panel, with its four operating buttons, is uncomplicated and easy to use. Duomatic Esprit effortlessly removes adhesive dirt and leaves the floor amazingly dry thanks to the patented Wetrok Power-Whirl suction nozzle technology. The 55-liter water tank with integrated pump keeps the set water flow constant. The powerful Self-Drive feature makes manoeuvring quick and easy.

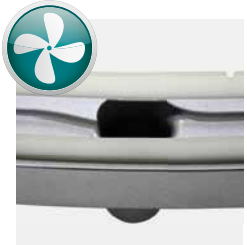

Intuitive operation:
Less is more.
Four buttons on the touch panel means operating the new Duomatic Esprit couldn't be easier. Optional password protection prevents machine manipulation by unauthorised personnel.

Ergonomic concept:
More flexibility and agility.
The upright handle is fully adjustable – even during operation – to ensure ergonomic, fatigue-free working conditions. The machine responds faster and with more precision. And when you are done, simply fold up the handle. This will minimise the storage space required.

Water refill made simple: Integrated hose coupling and auto-stop.
No more waiting around while the fresh water tank fills thanks to Quick-Refill: Simply attach a standard garden hose to the integrated hose coupling and open the tap. The water supply will be shut off automatically, once the tank is full.

Dry as you go:
The squeegee assembly reinvented.
The innovative and patented Power-Whirl by Wetrok guarantees highest suction efficiency. The squeegee assembly creates optimised suction air turbulence, which dries the floor as the machine passes – for perfect results.

Ready where you are: with “Touch‘n‘Clean”.

The ergonomic handle improves operational safety: Hold the handle to start the machine – release, and the machine stops. Power consumption is reduced, and the life length of the machine is increased.

Perfect dosage every time: helping your budget and the environment.

You want a perfect dosage of water and chemicals every time? The optional automatic dosage system is the answer for you. It allows the Duomatic Esprit to fulfil its potential, while you benefit from optimised efficiency and lower costs during the lifetime of the machine.

Clean and tidy: outside and in.

The interior of the Duomatic Esprit is just as clean as the floors it leaves behind. The sturdy housing protects the built in systems reliably against contamination, and prevents moisture from entering.

Operating comfort at its best: Automated brush housing.

The brush housing of the Duomatic Esprit is raised and lowered automatically. Operation of the machine is therefore fatigue-free and ergonomic, while the brushes are easy to attach and remove.

Duomatic Esprit: The cleaning technology multi-talent

- **Wetrok Power-Whirl dries floors in seconds**
- **Touch'n'Clean handle for automatic machine stop and go**
- **Quick-Refill for easy water filling with auto-stop**
- **Self-Drive function for automatic advance and simplified working**
- **Automatically lifting and lowering brush housing**

Technical Data		
Theoretical area coverage	2'000 m^2/h	
Working width	50 cm	
Total length	117 cm	
Machine width	57 cm	
Total width	79 cm	
Suction width	78 cm	
Total height	121 cm	
Weight (incl. batteries)	215 kg	
Fresh water tank	55 l	
Recovery tank	55 l	
Number of brushes	2 pcs	
Brush pressure	28 kg (0.41 N/cm^2)	
Brush speed	200 1/min	
Brush motor output	2 × 370 W	
Vacuum	155 mbar	
Airflow rate	41 l/s	
Suction turbine output	370 W	
Drive type	Self-Drive	
max. working incline	2%	
Total output	900 W	
Noise level	69 dB(A)	
Battery		
Battery life 76 Ah	up to 2 h	up to 1.7 h
Battery life 105 Ah	up to 3 h	up to 2.7 h
